

AutomaTech is a leading provider of industrial technology solutions focused on improving your operational performance

By harnessing the power of data, we enable significant gains, visibility across your entire organization, and increased profits for a competitive edge. Our product offering includes a flexible and scalable mix of hardware and software solutions to solve your toughest challenges while providing a road map for future improvements and growth. More importantly, we stand behind all our solutions with superior and ongoing support for the lifetime of your products, helping you maximize your investment and operational potential.

OUR SOLUTIONS

Manufacturing & Operational Intelligence

HMI/SCADA & Automation

Industrial Internet (IIoT) & Cloud Applications

OT Infrastructure & Cyber Security

LIFE SCIENCES

From process development to final packaging, we provide innovative manufacturing solutions for all phases of production. Our experienced teams of engineers partner with you to custom design a solution that fits your needs and drives competitive advantage.

- Electronic Batch Records
- Electronics Signatures
- CFR21 Part 11 Compliance
- HMI/SCADA Solutions
- Industrial Thin Client Solutions
- Fault Tolerant Redundant Servers
- Facility Monitoring & Controls
- Industrial Networking Solutions
- NEMA 4X Operator Workstations
- Rugged IP Video Solutions
- Cyber Security
- Enterprise Data Historians

Strategic Partners

GE Digital

Transforming businesses and leading the digital industrial era with software solutions

Cybersecurity Solutions, Convergence of Networking & Security

Industrial networking, computing, and automation hardware including switches

Real-time data and visualization provider, featuring the dataPARC software suite

Hardware based fault tolerant computers and virtualization solutions

Cloud-based energy management with real-time info, alarming, and predictive analytics

Drive products and solutions including AC servo systems and inverters

Industrial computers, data acquisition, I/O, HMI, communication cards, and more

Industrial PC computers, monitors, and control HMIs for industrial automation

Industrial computers, monitors, thin clients, custom computing solutions

OT and IoT security and network visibility, threat detection and operational insight

Industrial PCs, touch panel computers, HMI, industrial networking, and more

HMI Operator Interface, industrial computers, flat panel monitors, and more

Simplify complex plant reporting with clean, professional, easy-to-use custom reports

Automated reporting and data analysis software for production and management

Rugged IP cameras and video management software for monitoring and surveillance

Thin client management and mobility solutions for the modern factory and office

Connect, access, and control industrial data with an enterprise-ready platform

PLCs with integrated HMI, full line of VFDs, a broad array of I/Os and complementary devices

Advanced backup and version control software that protects intellectual property

Alarm notification software supplying telephonic data acquisition and controls

Cross Domain Solutions, Secure Device Access, Network Access Control, Malware Analysis, Security, Developer Tools

Comprehensive Alarm and Notification Software
