

WATER SOLUTIONS

Your Trusted Advisor for Thousands of Public & Private Water Facilities

PROVIDING INDUSTRIAL WATER SOLUTIONS FOR OVER 25 YEARS

- 🔧 SCADA Upgrades and Migrations
- 🔧 Design & Technical Consulting
- 🔧 Supply
- 🔧 Cyber Security & Networking
- 🔧 Application Engineering Support
- 🔧 Training & Certifications

YOUR PREMIER SOURCE FOR WATER SOLUTIONS

SCADA Systems & Critical Infrastructures

High-Availability SCADA & Alarming

Thin Clients & Industrial Computing

Server Computing & Disaster Recovery

Secure Data Collection & Reporting

Automated Regulatory Reporting

Secure Data Collection

Analytics & Maintenance Optimization

Secure Connectivity & Infrastructure

Cyber Security & Networking

Secure Remote Connectivity

Telemetry & Communications

Process Automation & Interface

HMI & Operator Interface

PLCs & RTUs

Remote I/O & Data Acquisition

ACCURATE INFORMATION FOR DECISION SUPPORT

OPERATORS

- Information delivered timely to solve problems
- Drive immediate response
- Equipment status monitoring
- Out of process notifications

MAINTENANCE

- Pareto equipment breakdowns daily
- Improve MTBF/MTTR
- Be alerted to critical breakdowns (messages)
- Quickly provide ad-hoc trends for diagnostics

ENGINEERING

- Enable users to create their own dashboard
- Right information accessible by other departments

QUALITY

- Digital Quality Checks (data entry)
- Historical Data to drive 5 Why/Continuous Improvement (CI) process
- Trend large amounts of data

MANAGEMENT

- Exception based management
- Team collaboration & daily huddles
- Data Aggregated Dashboards
- Electronic reports & process status in near real-time

GE PROFICY: SCADA, HISTORIAN & MOBILE WORKFORCE

WATER SCADA SYSTEM DEMONSTRATION

AutomaTech has a real-world Water and WasteWater SCADA system hosted in Amazon Web Services (AWS) enabling you to view, compare, and discuss industry best practices with our team of experts.

◀ **Schedule a Demo with an
Application Engineer**

Review the water SCADA system demo with
an AutomaTech Application Engineer

automatech.com/water-demo

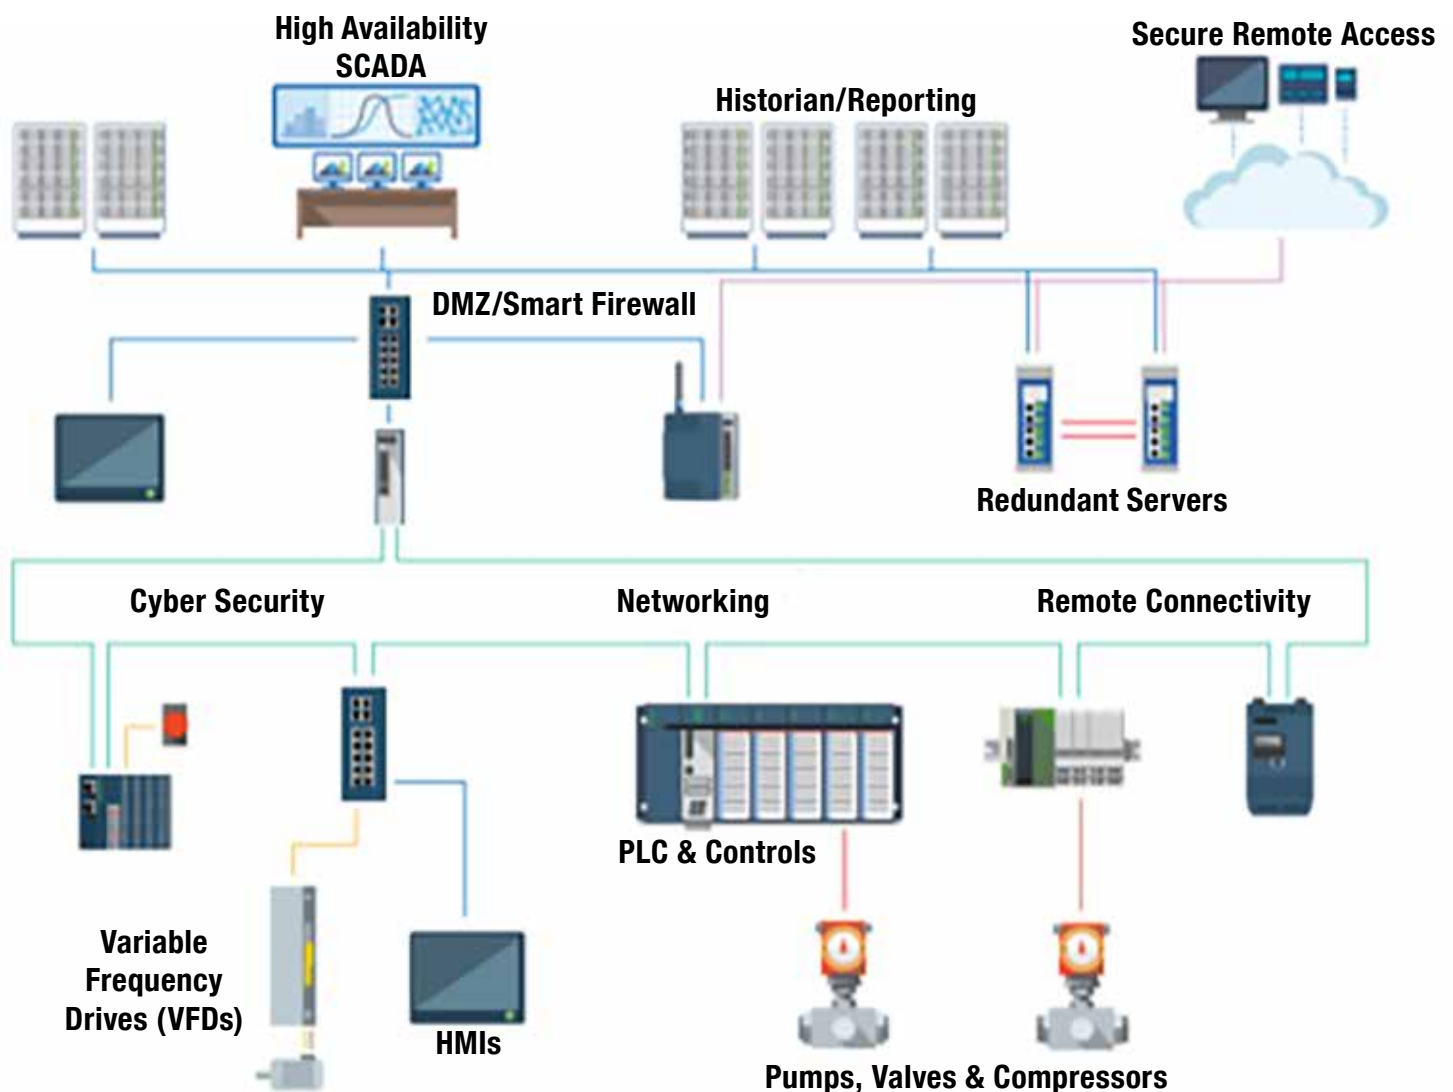

WE SECURELY CONNECT, COLLECT, CONTROL, VISUALIZE, ANALYZE, & OPTIMIZE

Thousands of water facilities have turned to AutomaTech to help improve their operational productivity and lower overall operating costs.

AutomaTech's application experts help water facilities with:

- ▶ SCADA Upgrades & Migrations
- ▶ Design & Technical Consulting
- ▶ Supply of Products
- ▶ Application Engineering Support
- ▶ Training & Certifications

OUR TRUSTED PARTNERS

Industrial Automation Distributor and Representative helping you with your operational and technology needs

Automation Hardware & Software, Process Systems, Solutions

Hardware-Based Fault Tolerant Computers

Cybersecurity Solutions, Convergence of Networking & Security

XLReporter - Automated Reporting & Data Analysis Software for Production / Management

OPC & Embedded Device Communications

WIN-911 Software for Alarm Notification

Device Servers, Industrial Ethernet Switches, Multiport Serial Cards

Industrial Automation Products & Solutions

Industrial Computers, Monitors, and Control HMI's

Advanced Industrial Computing Solutions

Unified IoT/OT Visibility and Security, Integrating Essential OT/IoT Visibility into SOAR Technologies

Manufacturer-independent version control and change management software

Cross Domain Solutions, Secure Device Access, Network Access Control, Malware Analysis, Security, Developer Tools

Industrial PCs, Touch Panel Computers, HMI, Industrial Networking

HMI Operator Interface, Industrial Computers, Flat Panel Monitors

SCADA, Monitoring, Control & Automation Software

Provisioning & Management of Secure, Private Overlay Networks

Easy-to-use, Automated Reporting and Data Analysis Software

Full Featured Industrial Thin Client Management Software

Remote Video Surveillance Monitoring

Integrated PLC + HMI, I/O & VFDs, Free All-in-One Software: Configure & Program PLC, HMI, VFD & Web Portal, UniCloud
